

brand guidelines

29 February 2024

hello & welcome

These guidelines have been created to help you express the macaws.ai brand through writing and design.

The macaws.ai brand is not just about looking visually presentable, but should speak to its customers, employees and partners on a deeper level and should represent the values and beliefs of the brand.

our logo

logo usage

The primary logo colours are grey and red when used on a white background, as seen below.

Care must be taken when using the logo over an image. If the image is light, then the logo can be used in the primary colours. If this is not possible, then the logo must be used in white over an image.

Always ensure that the logo is readable and doesn't disappear on the image.

logo usage

Do's:

Dont's:

Don't use the logo on a background where it's illegible. The correct usage in the above example would've been the white logo.

Do not rotate the logo.

Do not break the logo up in any way.

Do not change the logo font or colours.

Do not stretch or distort the logo in any way.

Do not add a drop shadow to the logo.

logo exclusion zone

To maximise the presence of our brandmark, and to give it the space it deserves, it is surrounded by an exclusion zone.

No other text or graphical element should encroach this zone which is defined by the height of “ai” in macaws.ai.

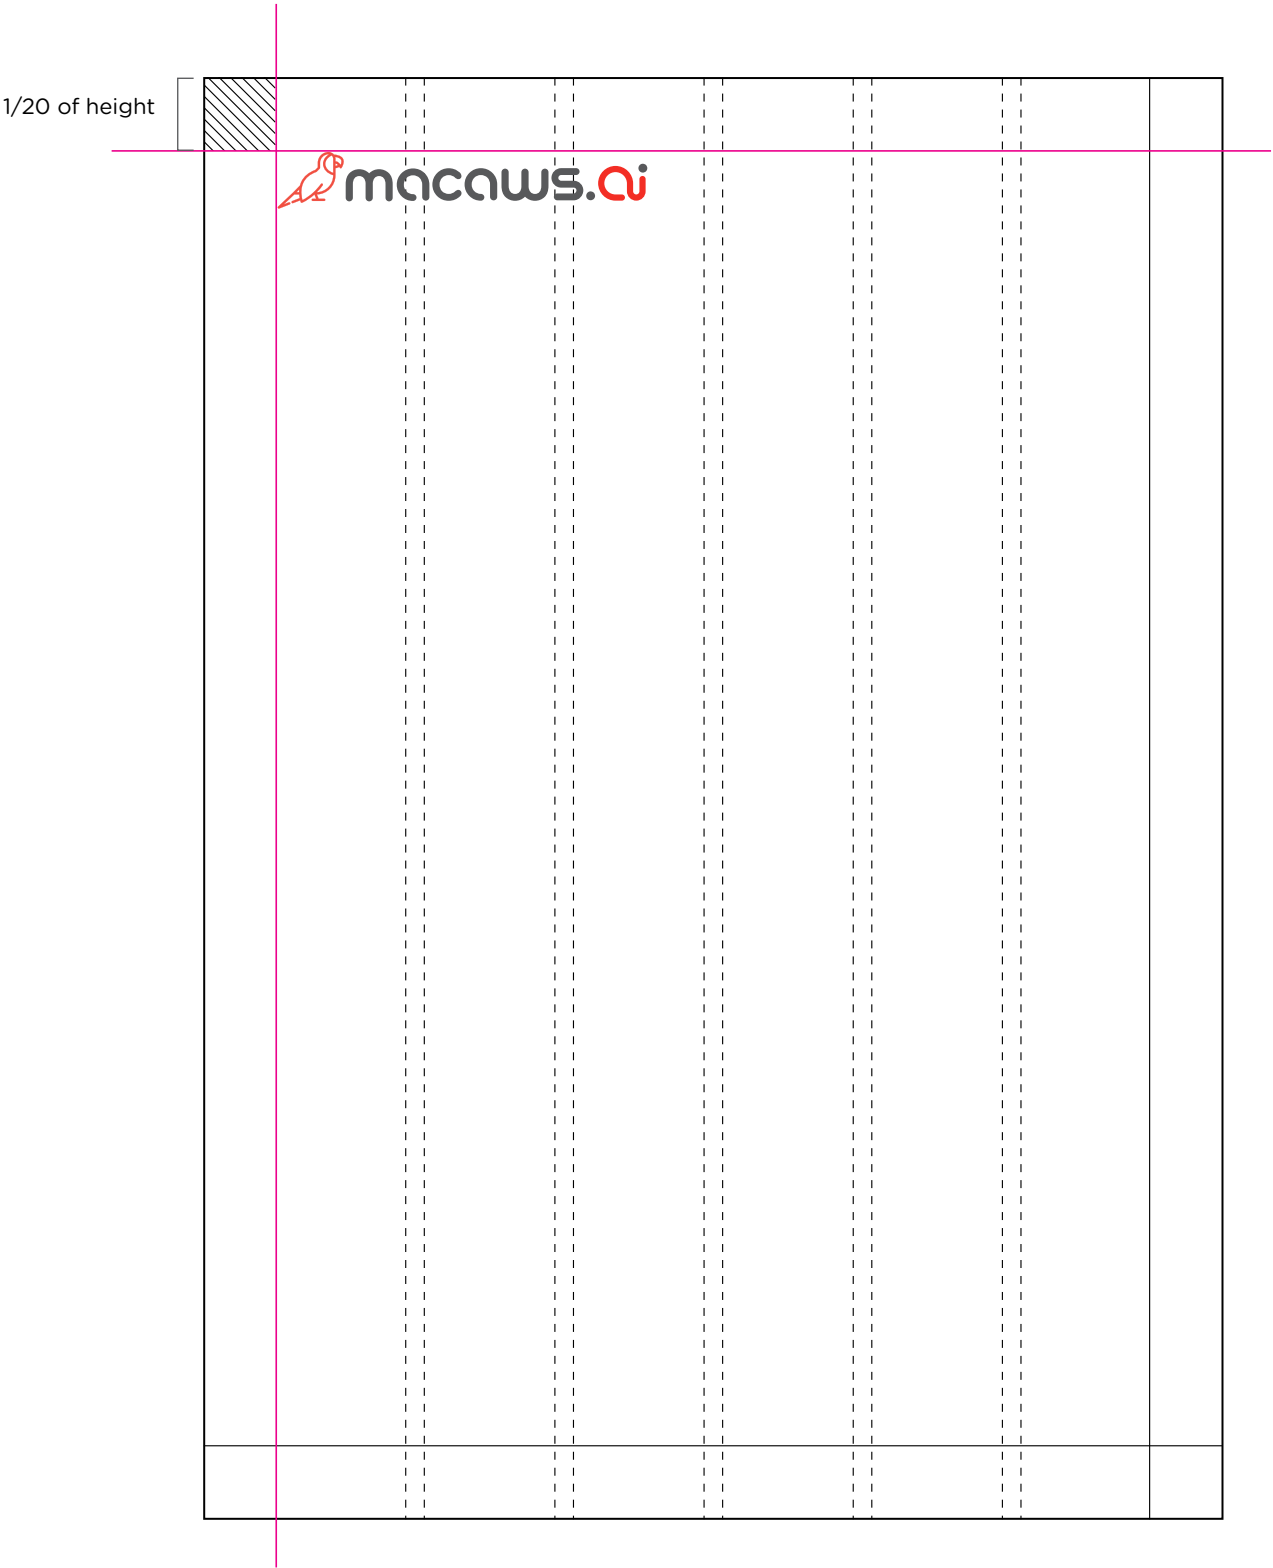

40mm
120 pixels

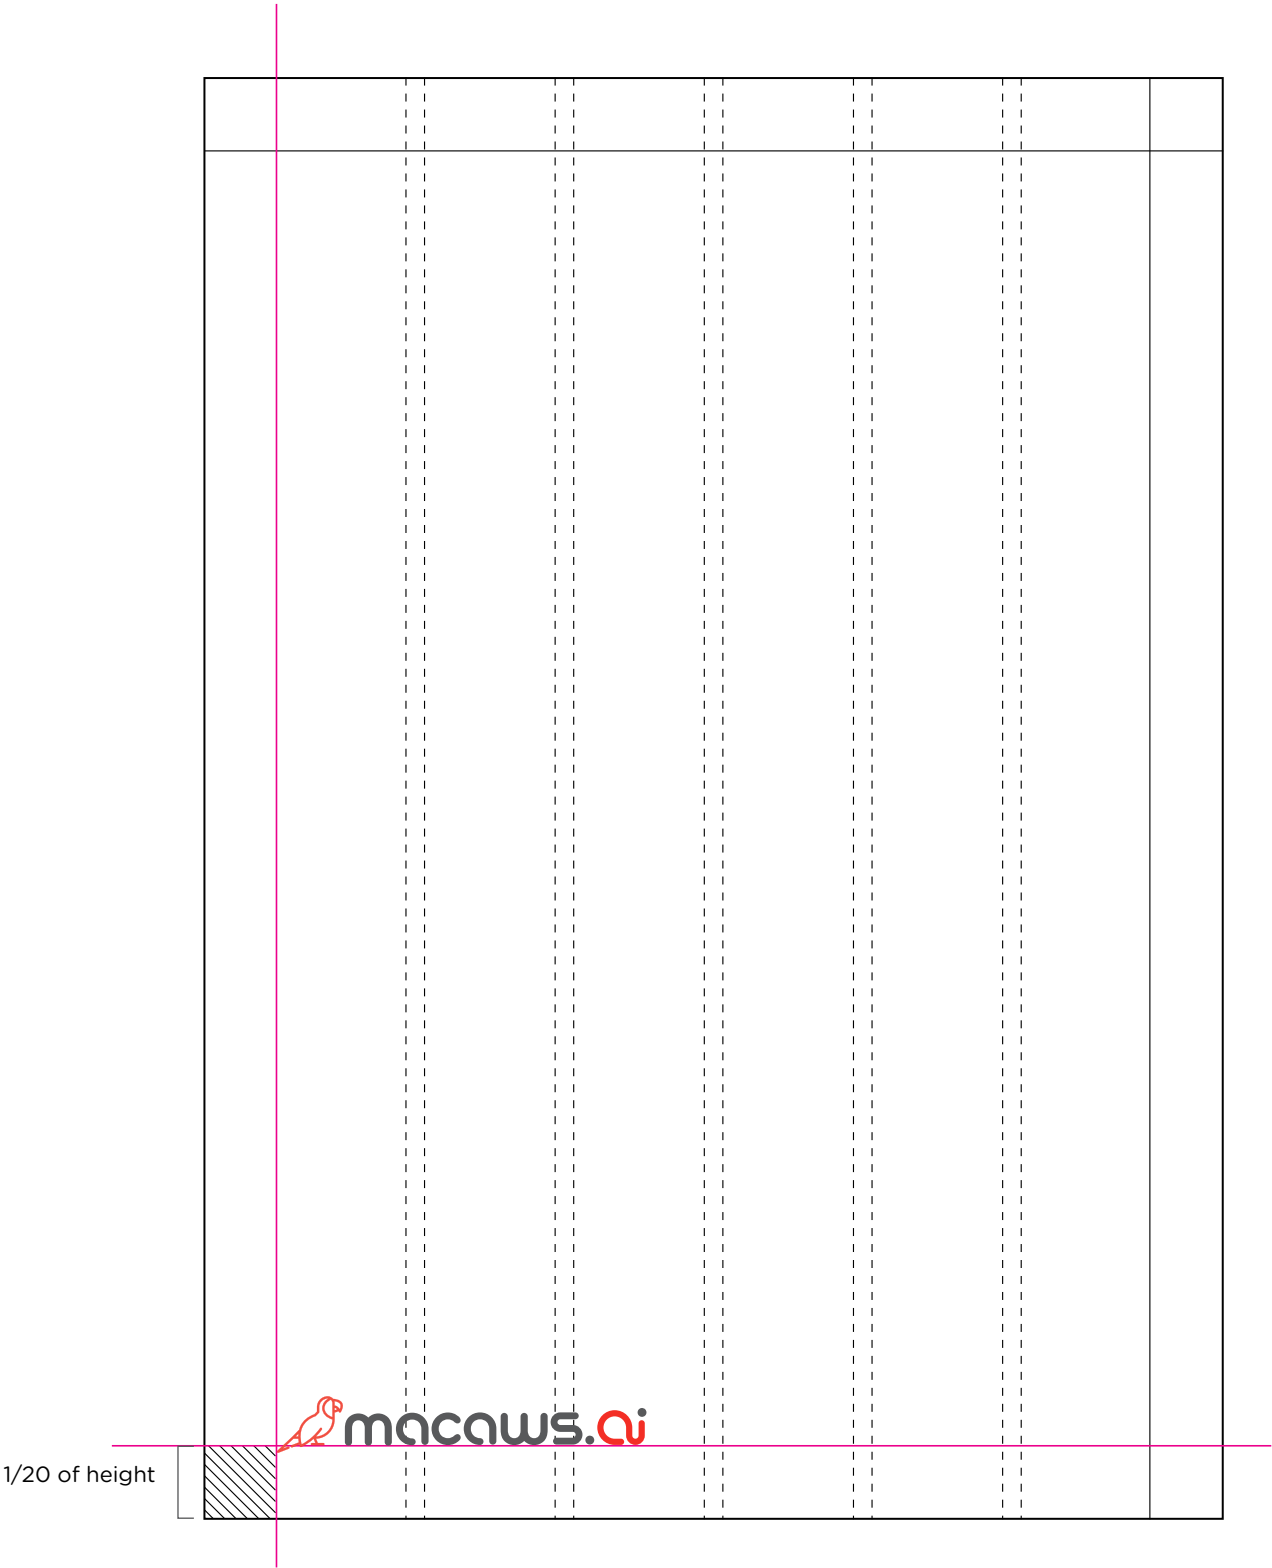

Minimum identity size

logo placement

Our preferred logo positioning is top left or bottom left.

Top Left
